- Team Leadership

OVERVIEW OF KEY SKILLS

- **Program & Process Optimization:** Spearheaded initiatives improving compliance, efficiency, and data integrity across federal agencies and private-sector programs, ensuring seamless operational performance.
- **Stakeholder & Cross-Functional Collaboration:** Engaged with executive leadership, field operations, and multi-agency teams to align project goals, ensuring timely execution and regulatory adherence.
- **Data Analysis & Strategic Decision-Making:** Utilized data visualization and advanced reporting tools to track performance metrics, identify trends, and inform high-impact business decisions.

PROFESSIONAL EXPERIENCE

U.S. Dept. of Agriculture | Riverdale, MD

May 2024 – Present

APHIS, Management and Program Analyst (Remote)

Developed reports tracking inventories and file plans across 250 USDA locations, improving compliance and transparency. Led collaboration with 50+ field offices and 43 State Plant Health Directors to implement federally mandated records management.

- Developed and refined program analysis reports, tracking 344 inventories and file plans across 250 USDA locations nationwide, enhancing transparency and compliance within Plant Protection & Quarantine (PPQ) Records & Information Management (RIM).
- Coordinated with 50+ APHIS PPQ Field Operation offices to implement federally mandated records file plans, ensuring timely execution and regulatory adherence.
- Managed the team's Outlook mailbox, identifying and escalating critical items among 3,430+ received emails, improving efficiency and internal communication.
- Engaged with 43 State Plant Health Directors, overseeing the development of 172 records inventories and structuring file plans for 1.5k+ program documents, identifying 20% as permanent historical records.
- Submitted an Exception Request with a Cost-Benefit Analysis (CBA), legal review, and project outline, securing an extended records submission deadline to the National Archives and Records Administration (NARA) to ensure continued compliance.

USI Insurance Services | U.S. West Region

July 2022 – March 2023

Commercial Lines Associate Account Representative

Managed policy audits, endorsements, and compliance reviews, ensuring accuracy and adherence to underwriting guidelines. Processed Certificates of Insurance and assisted in proposal development, improving efficiency and client service.

- Audited client policies, endorsements, cancellations, and reinstatements, ensuring compliance and accuracy in all insurance transactions.
- Processed mid-term and renewal Certificates of Insurance, supporting seamless policy execution and reducing turnaround times.

Commercial Lines Associate Account Representative Continued

- Prepared insurance proposals and financial agreements, improving efficiency in the commercial underwriting process.

United States Air Force | Various Locations**August 2015 – December 2021****Medical Material Supervisor**

Oversaw War Readiness Materials (WRM), ensuring operational compliance and medical preparedness. Led COVID-19 response, validating \$600K in assets and supporting 114K+ medical appointments for AAAHC re-accreditation.

- Maintained War Readiness Materials (WRM) continuity reports, ensuring mission preparedness and regulatory compliance for contingency projects.
- Led facility management and frontline COVID-19 operations, overseeing \$600K in pandemic assets, which supported 114K+ medical appointments and contributed to the 2021 AAAHC re-accreditation.

Fire Officer & Inspector**February 2018 – August 2020**

Led fire safety inspections, resolving deficiencies that safeguarded \$324M in assets. Managed fire hose certification, eliminating \$30K in contract costs and enhancing emergency response capabilities.

- Conducted 52 Fire & Life Safety Inspections, identifying and resolving 43 discrepancies, protecting \$324M in assets through corrective actions.
- Managed the pre-fire planning program, ensuring life safety compliance for 15 facilities, contributing to the 2019 Commission on Fire Accreditation International Award, placing the unit in the top 5% of DoD fire departments.
- Led a 14-member team in a specialized program management role, certifying 17,000+ feet of in-service fire hose, identifying \$12K in defective equipment, and eliminating \$30K in contract costs through in-house solutions.

Firefighter/ EMT**February 2016 – February 2018**

Executed emergency response operations, evacuating 120+ personnel during Hurricane Matthew. Secured a \$143M F-22 Raptor after engine failure, ensuring mission readiness and personnel safety.

- Provided emergency response during Hurricane Matthew (Category 5), coordinating the safe evacuation of 120+ military personnel.
- Served as the first responder for an F-22 Raptor engine failure, ensuring the safety of a \$143M aircraft and supporting Joint Task Force – Capital Region POTUS Inauguration operations.
